### 52 Weekly Development Classes

Lightworkers are extremely busy, so let your classes come to you. All you need is a little know-how and internet savvy and if you don't have it, we'll help you get it.

Each weekly class will be filled with video tutorials, instruction, advanced meditation journeys, personal development exercises, Life Experiments™ or shamanic rituals. The class intentions will be to help you attract the life of your dreams and to work through whatever is holding you back from your full potential and life bliss.

You'll have a week to complete each class, so you can enjoy it at whatever time suits you. Once a week on a night that suits the majority of the students, you'll even be able to dialogue with Avril in an online chat room, getting feedback on your weekly experiences, so you can get the most out of each class.

# Wonderful Life-Enriching Content

We live in the real world and Lightworkers have real world challenges, just like everyone else.

It's hard to be the peace you want to see in the world, when you're broke, feel lost, have relationships which don't connect you on a Soul level, experience frequent health and energy problems or are lonely, because you feel unique and different to others. In many ways Lightworkers can feel lost and on their own to work out these challenges, because their work makes them focus on 'having it all together' all of the time, even when they may not feel this way.

In the first part of this program, Avril will be working directly with you to help you breakthrough to new states of bliss in the life areas which aren't meeting the expectations of your ideal.

You get to choose the most important life aspects and Avril will help you get right to the core in these areas. You will need to be ready to have your life change, no matter what it takes and to welcome the sanctuary of self shadow, bringing more light into your life.

The second segment of the program will relate specifically to your Lightwork. You may already be talented, gifted and an amazing Lightworker helping hundreds to thousands of people every year, but lets see if we can make your world energy ripple, even bigger! Accelerate your natural gifts and open your work as a Lightworker to the next levels.

Avril will teach you techniques, she has never shared before, to help you reach out and share your special message with the world. You are unique. All Lightworkers are. Your message is important. Your pathway is sacred. Avril will help you refine and understand your true purpose and discover ways to activate it in the physical world, so your pathway can bring you all the joy it was meant to.

# Wonderful Life-Enriching Content

Avril will also share ways you can personally tap into your own consciousness with some very special spiritual shamanism techniques.

We won't describe more about what these are in detail here, as what may seem to be magic or parlor tricks is not what should be drawing you to this class! But, needless to say, some of these techniques will seem pretty magical, even to advanced Lightworkers.

You will learn what you have never imagined possible before. How much you soak in and learn in this component is completely up to you. Avril asks that you open your mind to possibility and she'll teach you what truly living in light really can do.

It is all very well and good to have spiritual skills, but how can you use your new spiritual abilities to benefit your life in physical ways? The third segment will bring it altogether.

**If you embrace the program fully  
the overall outcome will be  
that both your personal life  
and your Lightwork  
are AMAZING and ENRICHING  
for YOU**

**And the people you are of service to,  
will also seriously benefit
